

Test case 1:

The screenshot shows the SAP Employee Dashboard interface. At the top, there is a title bar with the SAP logo and user information: "AUSER-104", "al8-he-stu02", and "OVR". Below the title bar, the dashboard has a header "Employee Dashboard". The main area contains a form with the following fields: "Employee ID" (highlighted with a red border), "Employee Name", "Organization", "Designation", and "Status". Below the form, there are three buttons: "Search", "Update Status", and "Mark Attendance". At the bottom, there are three more buttons: "Employee Report", "Analytics Report", and "Exit".

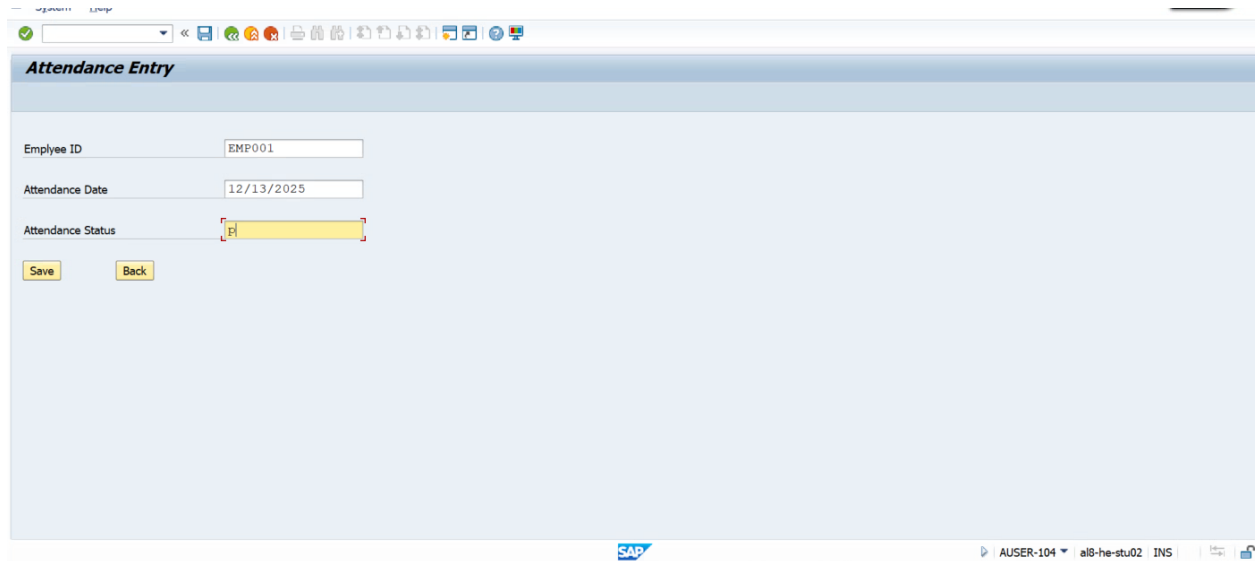

Output:

The screenshot shows the SAP Employee Dashboard interface after a search. The "Employee ID" field now contains the value "EMP001". The "Employee Name" field contains "HARSHA", the "Organization" field contains "IT", the "Designation" field contains "DEVELOPER", and the "Status" field contains "A". The buttons "Search", "Update Status", "Mark Attendance", "Employee Report", "Analytics Report", and "Exit" are still present. The SAP logo and user information "AUSER-104", "al8-he-stu02", and "OVR" are also visible at the bottom.

On hitting search the employee information is generated.

Test case 2:

The screenshot shows the SAP 'Attendance Entry' transaction. It features a standard SAP toolbar at the top. Below the title bar, there are three input fields: 'Employee ID' with the value 'EMP001', 'Attendance Date' with the value '12/13/2025', and 'Attendance Status' with a dropdown menu showing 'P'. At the bottom left of the form area, there are two buttons: 'Save' and 'Back'. The SAP logo is visible in the bottom right corner of the window.
